TUESDAY MORNING.

APRIL 29, 1913.

Judgment of Politicians.

RAMONA RESTORED.

Mother Clasps Her
in Her Arms.

Daughter of Millionaire Borden
Will Be Brought to
Los Angeles.

Father Relinquishes Girl Who
Fled from an Eastern
Sanitarium.

Parents Agree on the Terms
of Joint Custody of
Their Child.

NEW YORK BUREAU OF THE TIMES, April 28.—(Exclusive Dispatch.) Mrs. Helen Valk Borden arrived in this city early this afternoon from her home in Los Angeles, Cal., and at 4:30 o'clock met her daughter, Ramona, who, last Wednesday, ran away from the Adams sanitarium in Pompton, N. J., with Mr. William J. White, wife of the famous gun manufacturer, and another woman.

Last night mother and daughter were together in the Hotel Belmont. In a few days, Mrs. Borden will return to Los Angeles with Miss Helen Borden, father of the girl, who has voluntarily relinquished possession of her place no obstacle in the way of his wife's plans.

Parents Negotiate.

Mr. and Mrs. Borden are not on speaking terms, but by negotiations carried on between Mrs. Borden and her brother and sister of her husband, it was agreed tonight that the custody of the future child of Ramona will remain with her mother.

Until this was caused by the fact that the girl has been married, and will remain in the hands of her mother.

She has telegraphed to her mother.

(Continued on Seventh Page.)

MISS WILSON SUFFRAGETTE.

Daughter of the President
Wants Women to
Vote.

[By Wireless Line to the Times.] NEW YORK BUREAU OF THE TIMES, April 28.—(Exclusive Dispatch.) Miss Margaret Wilson, eldest daughter of the President, is "very much in favor of woman suffrage." She said so tonight at the reception given to her by the Greenwich village social center in public school No. 41. She added that the newspaper which quoted her as saying at the recent dinner of the Mary and Frederick of Women's Clubs in Baltimore, that she did not think women should be given the vote had very much misquoted her.

The Great War.

BALKAN MYSTERY GROWING DEEPER.

Pasha's Albanian Exploit Is
Unexplained.

Bulgars Had Orders to Evacuate
All Places Occupied by Greeks,
and War With Serbia and Nicholas
Forces Is Expected When
Peace Is Declared With Turkey.

(By Cable and A. P. to the Times.)

LONDON, April 28.—The mystery surrounding events in the Balkans is becoming deeper. No further news has been received of General Pasha's exploit in Albania, and the situation in Salonica is difficult to understand. A dispatch from Salonica of current date confirms the report that orders were given for the Bulgars to evacuate all places occupied by the Greeks, but that the orders were countermanded and that official attempts were made to prevent their evacuation.

A dispatch dated April 28, to the Daily Telegraph, expressed the opinion that the situation in the Balkans is becoming more serious, and that a new war will commence between Serbia, Bulgaria and Greece.

BRYAN'S MISSION FAILS VERDICT OF SACRAMENTO

Johnson Declares That the Japanese
Protest Has Come too Late.

Governor of California Insists that They Should Have
Made an Issue of the Arizona Anti-Alien Law if Any.
Secretary of State's Plea in Behalf of the Wilson Administration for Time Falls on Deaf Ears.

BY LOU GUERNSEY.

(BY DIRECT WIRE TO THE TIMES.)

SACRAMENTO, April 28.—(Exclusive Dispatch.) President Wilson's mission to the California Legislature to urge that the California Legislature do not at this time take any action whatever to exclude aliens from owning and leasing land, has failed. The matter was left to the Federal government. It came to a head in that way the President urged that action be taken later at a special session of the Legislature.

This was the message delivered today to the California Legislature by Secretary Bryan. In other words, during the discussion Bryan spoke at length. He was rather reticent as to the representations Japan has made upon the subject, and in answer to a direct question by one of the legislators, refused to state exactly what pressure had been brought to bear upon the administration by the Japanese Ambassador or by others interested in preventing the exclusion of Nipponese.

As the conclusion of the executive session none of the legislators appeared particularly reluctant to tell what he or she had heard. They were not, of course, to go into great detail, but those interviewed were unanimous in their declaration that so far as had been heard, and from Secretary Bryan, Japan has not threatened to proceed to extremes in case of refusal to grant the right of citizenship in California. In other words, the "war talk" emanates from glassy-eyed linguists and the yellow-back.

Bryan came with the dove of peace.

The Fixed Idea.

"MY MIND IS UNCHANGED,"
JOHNSON NOTIFIES BRYAN.

Indications Are that Anti-Alien Bill Will Be Passed
in Sacramento—Details of the Two Conferences of the
Secretary of State With the Lawmakers of California
and the Governor.

BY A. P. NIGHT WIRE TO THE TIMES.

SACRAMENTO, April 28.—(Exclusive Dispatch.) In the fullness of her right as a State, may enact a law barring orientals from ownership, but such action would be against the policy of the United States, and the national administration.

This is the substance of the message from Washington which William Jennings Bryan, Secretary of State, delivered today to a secret conference attended only by Gov. Johnson, Lieut. Gov. Wallace and the 125 members of the State Legislature.

After sitting through two long sessions of the conference, the Legislature reached the end of the first step in its negotiation with Secretary Bryan. He added that any further advance in the matter of the alien law would be decided by the Legislature.

When asked whether the arguments of the Secretary of State had changed his opinion in the matter, Gov. Johnson replied in one word: "No."

The Governor's position had been outlined previously in a speech before the conference shortly before adjournment. In which he set forth the views of the majority in the Legislature. Secretary Bryan had made reply to the last question of the conference, and was speaking through when Gov. Johnson arose.

"The bill proposed for passage by the California Legislature can call for no further action on the part of the Federal government, nor from the national administration," said the Governor. "Here, California is in a question of whether the Japanese government takes offense at what we do, but whether we give that government just cause for offense. I do not believe that."

(Continued on Second Page.)

TWO JAPANESE EN ROUTE TO CONFER IN SACRAMENTO

Constitutional and Opponent Political Parties Will
Each Send a Representative to Make a Personal
Investigation of the Anti-Alien Situation in California.
Osaka Business Men Wire Disapproval.

(BY CABLE AND A. P. TO THE TIMES.)

TOKIO, April 28.—The report that Viscount Kintaro Kaneko, private counselor, is going to Sacramento in connection with the pending alien land ownership legislation is untrue, but the Seiyukai (constitutional) and Komeito (opposition) parties are dispatching representatives to California to make a personal investigation of the situation. The official view is more hopeful, saying to Secretary Bryan's mission, but public opinion still insists that the

Hear Him But Heed Him Not.

William Jennings Bryan.

Who addressed the California Legislature in executive session in Sacramento yesterday to enter the plea of the Wilson administration to delay the anti-alien bills now pending there.

A Judge Excoriates.

REFUSAL TO BUY A FLAG
MAY COST JAIL SENTENCE.

(BY DIRECT WIRE TO THE TIMES.)

SACRAMENTO, April 28.—(Exclusive Dispatch.) Teaming with scathing denunciation of the county commissioners for refusing to furnish his courtroom with an American flag, a letter composed of ten typewritten pages, composed by Superior Judge John H. Humphries, was read by the officials this morning and later in the day the judge, who has threatened to call the commissioners for contempt in refusing the flag, was sustained by the decision of the State Supreme Court denying the commissioners a writ of prohibition against the proposed imprisonment.

The judge takes violent exception to the language of Daniel Webster, "I was born an American, I live an American and I shall die an American."

And the American feels like repeating the toast given at Norfolk by Stephen Decatur, "Our country, in her intercourse with foreign nations, may also be right—our country, right or wrong."

A native-born American believes in the statement of Lincoln, when he said "This nation under God shall be a new birth of freedom that government of the people, by the people and for the people shall not perish from the earth."

Robust Religion.

LEAVES GIFTS

BARONET WALKS AT PAYING
CUSTOMS DUTY.

St. Louis, France, of an English nobleman will have to wait until they start on their money-moon to get a glimpse of the "Family Silver" held up.

(BY FEDERAL WIRELESS LINK TO THE TIMES.)

NEW YORK BUREAU OF THE TIMES, April 28.—(Special Dispatch.) Sir Wilfrid Peak of Devonshire, England, the wondrous fascination of it for all the nation, has fairly transcended even itself here in South Norwalk.

For what form of baseball day our think has been established in this town.

You might worry till you got a million wrinkles and never guess. So here goes:

Baseball in church. The juniors and the seniors of the Christian Endeavor Society had a hot contest in the ninth inning, when pinch hitters went in for the seniors and started a rally, but the juniors tightened and held the victory secure.

It was brand new baseball—Scripture baseball, you see. And this is how it was played:

The "batter" stood up and the "pitcher" wound up mentally and sent over a question concerning the Bible. The "batter" had a chance at a home run. If he or she could answer any of the three—well, naturally that was a strike-out. But did the batter answer the first question or any of the three that was a base hit.

INVENTORY OF FLEET.

For Liberty under Law, Equal Rights and Industrial Freedom.

PRICE 5c: Twenty, \$1 Monthly, \$10 Quaterly, \$30 Half Yearly, \$60 Yearly, \$120 for 12 Months.

Reflections.

Pacific Squadron Is Recommended.

Naval Officer Declares that
the Western Coast Is All
but Defenseless.

Army Men Doubt that the Big
Ships Should Be Held on
the Atlantic.

Panama Canal Will Enable
Vessels to Divide Time
With Hemispheres.

VIEW OF AN EXPERT.

"Another phase of the question," said a naval expert today, "is that the Japanese government would hold its fleet in home waters until it learned by actual experience the weakness of the Pacific coast. In case of hostilities between the United States and Japan the Japanese government could not send its fleet to the Pacific. The Pacific coast is the only one that should be sent to the Pacific Ocean by way of the Bore Canal and the Philippines."

"Japan probably would take the Philippines and Guam and possibly Hawaii within a few weeks. It might send a fleet of swift vessels to bombard the coast of California, the Panama Canal and the cities of the Pacific coast. This could be accomplished before our Atlantic fleet could get around to the Pacific."

The loss of the Philippines and Guam would, of course, be humiliating, but when we get our fleet around to the Pacific Japan would be helpless. The opening of the Panama Canal will, of course, simplify the problem of military defense of the Pacific. After the waterway is completed and in operation the fleet can be transferred from one ocean to the other within a few weeks. The naval strength will not be divided, but the entire fleet will spend a part of each year each both oceans.

ARMY VIEW.

Army officers do not agree with the naval policy of maintaining the entire naval strength in the Pacific. The officials of the War Department contend that the vessels of the fleet should be where they are most needed. In the present political situation they contend the Pacific is the proper station for the naval force of the United States. If the entire fleet cannot be maintained on the Pacific coast, they say, then at least a part of it should be sent there.

FIND SHIP'S HULL IN GOTHAM.

Remains of Ancient Ship Unearthed While Digging Foundation for New Building.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK BUREAU OF THE TIMES, April 28.—(Exclusive Dispatch.) The hull of an old ship was unearthed this afternoon forty feet under the street at Fifteenth street and Tenth avenue by workers digging a foundation for a new building.

The old hull, which apparently had been burned, was fully a block from the waterfront. One explanation advanced was that years ago the water extended that far up.

The hull at one time was a good-sized fishing boat and it was probably dug out of the deck and the hull raised.

MINERS AT WORK.

CHARLESTON (W. Va.) April 28.—

One-third of the striking miners of the Paint and Cabin Creek districts, who left their work a year ago, returned today. Many others are expected to resume their positions tomorrow. The prolonged strike, which has caused much rioting, bloodshed and three proclamations of martial law, is believed tonight to be at an end.

TUESDAY MORNING.

MRS. PANKHURST EXPECTS SIEGE.

Her House Is Stocked With Food for Two Months.

Years Police May Shut Off Her Supply of Water.

Women to Resist Officers to Return Her to Jail.

By Cable and A. P. to the Times.

LONDON, April 28.—The explosion of the United States under the name of Pankhurst, the militant suffragette leader, was released on April 13 from Holloway jail, where she was serving three years imprisonment, caused a great crowd to assemble today at the house where she has been staying to recover from the effects of her "hunger strike."

Those who expected seeing her shortly returned to jail were disappointed; the authorities in the meantime having decided to crowd her into a cell, where she was expected to remain until her unsatisfactory state of health.

IN STATE OF SIEGE.
The occupants of the house where Mrs. Pankhurst was staying had been in a state of siege. It had been stocked with a two months' supply of provisions. The heavy door was barred, and only the door of the past was being admitted.

When Mrs. Pankhurst's chauffeur arrived from the house with Miss Pankhurst during the afternoon, a hoisting crowd tried to rush in. One of the militants who had been inside the house said afterwards that it would have been necessary for the police to pass these barriers before they could reach Mrs. Pankhurst, who was surrounded by what she described "our gunners."

MAY CUT OFF WATER.
The continued: "The only thing we fear is that the water may be cut off. We are prepared for a siege of a fortnight or more and the police may meet with a repulsion which may remind them of the 'Suffragette' street in White Chapel, where the Houndsditch anarchist murders held the police and troops at bay for a long period in 1911."

High Franklin, a suffragist, and brother of Postmaster-General Horne, was released from jail today.

WOMEN KILLS FRENCH OFFICERS.
Maid Thrown by Precursor to Anarchy Thrown Causes Havoc in Paris.

PARIS, April 28.—(Special Dispatch.)—Fragments of a bomb hurled by a woman adherent of the precursor of the dynamite thrower, burst among a group of French officers, government officials and foreign residents on the terrace of the principal hotel here last night, killing Marie Leon Mongrand of the Ninth Infantry and Capt. Frederic Ruffin of the Annamite Rifles.

Fragments of the infernal machine mangled eight other persons. The promenade in the vicinity was crowded at the time and all traces of the bomb thrower were lost.

The police discovered later in various places a number of bombs with which it was believed the followers of the precursor, Prince Kwong-Tse, intended to carry out a revolutionary program.

EDDY RESIGNS.
Secretary of Stockton Chamber of Commerce Quits Because of Desire for Harmony.

STOCKTON, April 28.—(Exclusive Dispatch.)—J. M. Eddy, for seven years secretary of the local Chamber of Commerce, tendered his resignation to a board of directors today to become effective July 1. Eddy's resignation was unexpected. It followed a long session of the board and is the result of a desire of the board to have harmony in the organization.

The secretary's friends declare that he tendered the office to prevent a more or less bitter stage of the directors would discuss the resignation. Eddy is well known throughout the State as an advocate of roads and is considered an authority on the subject.

His resignation is largely instrumental in the board about the bond issue under which nearly \$2,000,000 was spent in the construction of highways.

THE DISHONORABLE CHILDREN.
Capt. Martin of San Francisco Tells Wife Only What the Law Demands.

SAN FRANCISCO, April 28.—(Exclusive Dispatch.)—Capt. Martin of the local Chamber of Commerce, tendered his resignation to a board of directors today to become effective July 1. Eddy's resignation was unexpected. It followed a long session of the board and is the result of a desire of the board to have harmony in the organization.

His resignation is largely instrumental in the board about the bond issue under which nearly \$2,000,000 was spent in the construction of highways.

CHINA MUST WAIT.
Negotiations Delayed by Disagreement Over the Status of the Republic.

WASHINGTON, April 28.—(Exclusive Dispatch.)—The United States government has decided that the Republic of China must wait before negotiations for a treaty of commerce and navigation can be opened.

The decision was reached after a long session of the State Department, during which it was decided that the Republic of China must wait before negotiations for a treaty of commerce and navigation can be opened.

The decision was reached after a long session of the State Department, during which it was decided that the Republic of China must wait before negotiations for a treaty of commerce and navigation can be opened.

EMBARRASSED.

MARCONI CLOSES SHORE STATION.

Strike May Stop Handling Commercial Business.

Company Is Supplying Men for the Steamships.

Union Says Operators on Atlantic Are Also Out.

By A. P. Night Wire to the Times.

SEATTLE (Wash.) April 28.—Closing of all shore stations of the Marconi Wireless Telegraph Company on the Pacific Coast as a result of the strike of wireless operators begun last Tuesday is being considered by officials of the company. A statement to this effect was made today by R. H. Sawyer, assistant superintendent of the Pacific Coast division. Mr. Sawyer said the government stations handling commercial business and if the company decided to devote its attention to keep men supplied for ships the business between sea and land will be handled by the government.

This plan already has been put into effect at Astoria (Or.) station, where three men quit today. The company promptly closed the station and commercial business, which will be handled through the navy station at North Beach, Wash., but sent one man to Astoria to receive newspaper reports of steamship movements.

Union officials said 300 wireless operators on the Mississippi authorizing who are making a thorough investigation. The Dunbars say they have identified the child by marks on his body and they hope that the environment of their home will awaken some memories in his mind by which they will be more certain.

SEMI-STARVING RESCUES.
FATAL STRIKE IS ENDED.

EL PASO, April 28.—The El Paso smelter, tied up for two weeks by a strike of Mexican laborers, resumed work today with 250 negroes brought in from Louisiana and Texas. Nearly 150 of the former Mexican employees resumed work. One man was killed and several injured during the strike.

POSAM HEALS UNSIGHTLY SKIN TROUBLE.
After an affected surface has been covered with Poslam, the progress of the disease has been effectively checked. It cannot longer spread.

From now on an active, intense healing process is started, strengthened with each succeeding application, until the disease is mastered and driven away.

The uniformity and the positiveness with which Poslam over and over again accomplishes this definite work make it a dependable skin specific. The only one which should be called to aid should eczema, acne, pimples, itch or any form of skin disorder afflict.

POSAM SOAP improves the health, color and quality of the skin; beautifies complexion; renders the hands soft and velvety; purifies the scalp.

All druggists sell Poslam (price, 50 cents) and Poslam Soap (price, 25 cents). For free pamphlet, write to the Emergency Laboratories, 32 West 25th Street, New York City.

WASHINGTON ATTORNEY GENERAL LEAVES WIFE.

Woman Says Temperament, Dispositions and Modes of Living Were So Entirely Dissimilar That It Was Impossible for Them to Live Together Happily.

By Direct Wire to the Times.

SEATTLE (Wash.) April 28.—(Exclusive Dispatch.) With as much secrecy as could possibly be given the case, Mrs. Jane Tanner secured a divorce from W. Vaughn Tanner, Attorney-General of Washington, in Judge Dykeman's court last Tuesday, news leaking out only today.

King County Superior Court proceedings were brushed aside and the usual thirty-day period between the time of filing the complaint and trial of the case was not required. Complaint, answer, and decree all came the same day.

The complaint and answer recite the former statement that "the respective temperaments, dispositions and modes of living of plaintiff and defendant are so utterly diverse and dissimilar that it is impossible for them to live together happily."

In his answer, Tanner alleges that for several months Mrs. Tanner "refused to live with him, though he maintained a home and was willing to perform every duty owing by him to her."

Tanner admits her claim "that it is impossible for them to live together any longer."

HEAVY FINE FOR BANKER.
Jacob Furch of Bellingham, Wash., Sentenced for Violating Law on Bank Deposits.

BELLINGHAM (Wash.) April 28.—A fine of \$10,000 and costs amounting to approximately \$10,000 was the sentence passed upon Jacob Furch this afternoon by Judge E. E. Harding in the Superior Court here. As chairman-director of the Seattle National Bank, Furch was convicted recently of aiding and abetting the W. E. Schrickler Bank of Leavenworth to receive deposits while insolvent. His counsel argued motions for acquittal notwithstanding the jury conviction, retrial and arrested sentence. All were overruled and a motion from the state resulted in the sentence imposed.

ISLAND LAND IS SOLD.
Henry Fink Purchases Property of Mrs. Lammer at Sale Held in the City of Stockton.

STOCKTON, April 28.—(Exclusive Dispatch.) There was lively bidding in Judge J. A. Plummer's department of the Superior Court this afternoon when 1117 acres of island land, belonging to Mrs. Dorothea Lammer, was sold to the highest bidder. The land was sold in two parcels, Henry Fink buying in both for \$67,550. The land is rich and the buy is considered a good one by real estate men. Fink bid \$60,000 for the property at a private sale but the court refused to confirm it when J. C. Droge, referee in the civil action involving the land, declared that the bid was too low.

THEIR EARS UNSTOPPED.
The deaf are never so cheerful as the blind, for the blessing of expressed human sympathy is forbidden. They can have this these days, however, for modern research and patient science have produced a wonderful little instrument which banishes the gloomy pall of isolation. It surpasses all sound magnifiers, hitherto known, is simple, inconspicuous, not easily deranged, will last a lifetime and brings into the life of the stricken all the beautiful world of music and speech, the blessing of fellowship, the forwarding of duties. If your hearing is gone, or defective, call at the offices of the General Acoustic Co., 530 Security Bldg., Fifth and Spring streets, Los Angeles, and have a free demonstration of the marvelous little Acousticon.

Remarkable. TRIP COSTS TWO THEIR COUNTRY.

ONE-YEAR RESIDENTS CROSS
LINE: CAN'T RETURN.

Greeks Who Have Lived a Decade in United States and Taken Out First Citizenship Papers Are Denied Readmission After Little Visit in Mexico.

Judge Wellborn delivered an important ruling on the immigration law yesterday by denying the writ of habeas corpus sued out in behalf of George Bakale and Costa Georgelos, two Greeks who are now at Tia Juana. They have been denied admission to the United States by the immigration officers at San Diego.

The aliens have been residents of San Diego for about ten years and both have taken out first papers declaring their intention to become American citizens. In March they made a business trip to Ensenada and on their return to the boundary line were kept from entering, it being alleged that they are undesirable aliens. It was not alleged in the petition for the writ that they were physically detained on the Mexican line, but it was argued that they were constructively so in that they were not allowed to return to this country. It is also stated in the argument to the court that the Greeks have been out of Mexico and claimed that it was the duty of this government to send the men back to Greece.

In denying the writ Judge Wellborn laid down the principle that it was not the duty of the United States to return undesirable aliens to the country from whence they were deported. He said that the law was made for the purpose of keeping out of this country those who were not in this country; if they had been and been declared undesirable aliens, then under the law it would be necessary for the United States to send them back. But the position of the immigration officers at San Diego simply was that the Greeks could not enter this territory; the latter were free to go where they pleased, except that they could not cross the line. If, therefore, Mexico did not desire them, it is up to that country to order their deportation. The Greeks are well known in San Diego, where they have been in business for several years. When ordered back from the line their effects were seized and more than \$1200 gold was found in their possession.

Undated.
EDITOR LAUDS
LOS ANGELES.

NEBRASKA JOURNALIST CAELS
IT PARIS OF AMERICA.

Publisher of Hastings "Republican" Says Predictions of Ten Years Ago, When He Visited City First, Have Been Verified and He Is Convinced of Greater Future.

Special Correspondent of The Times.
HASTINGS (Neb.) April 24.—F. A. Watkins, for thirty years editor of the Hastings (Neb.) Daily Republican, who, with his wife, has been seeking the Pacific Coast the past winter, while at the Chamber of Commerce yesterday was quite enthusiastic in speaking of Los Angeles.

"When out there ten years ago," said the Nebraska editor, "in an article in my home paper I predicted that in ten years Los Angeles would attract such a population as to catch up with San Francisco. Some laughed at my prediction, declaring that while Los Angeles was bound to make wonderful progress along all lines, that it never would outrival San Francisco, being their calculations on San Francisco having too large and too good a harbor to be displaced by Los Angeles."

SAN PEDRO BREAKWATER.
"We noted the laying of the San Pedro breakwater, in progress at the time of our first visit there, and we predicted Los Angeles would awaken to the need of a harbor and would not wait until she got one. The present activity for a greater harbor for a greater Los Angeles is more proof that we predicted quite accurately on this point."

"Friends," continued Mr. Watkins, "as I was whisked along Broadway, seeing and some of the other most beautiful streets of that city, I want to say I never thought when there ten years ago that Los Angeles would grow so quickly as phenomenal a growth as it has in this time."

WITHOUT A PARALLEL.
"I consider it without a parallel in the growth on the American continent. After spending Saturday a week in San Francisco and then coming here I find the comparison between the two cities most interesting. When I was in San Francisco I was not without prejudice, but today there is no comparison. The rush and business activity in the streets that there was in San Francisco that day. We were not so far as lively along cosmopolitan as when we saw the city ten years ago. You ask me if this wonderful growth in Southern California is to continue? In answer let me remind you there is but one Southern California, and that nine out of ten who come to the Golden State do not stay. It is a pity, for San Francisco any day is taking in Golden Gate Park and the Cliff House."

COME TO LOS ANGELES.
"These places visited, then on to Los Angeles to spend their time and their money. And out of those thousands of them annually become permanent home buyers in Southern California—and so it will continue. I predict that within the next ten years Los Angeles will outrival San Francisco to such an extent as to be the center of the world—will, in wealth, commerce and civic beauty and attractiveness, become noted as the heart of the American continent."

PRAY FOR THEIR OWN.

Chosen Christians of City Meet in Union Service and Offer Supper for Motherland.

One of the most significant prayer services held on Sunday in behalf of the United States and the Christian Church in Los Angeles, was that of the Los Angeles Christian Church, which was held at a body at three separate churches at the Methodist mission on the corner of Broadway and Main streets. It is doubtful if, in the United States, or in the world, there is a more sincere and earnest prayer service than that from that upper room.

where the young Chinese men and boys of the mission gather for Christian teaching and preaching.

The three rooms of the mission are so arranged that they can be thrown into one auditorium which will seat 250 people, and at the afternoon prayer service, every chair was occupied by representatives from various missions assembling together. Not more than one-fourth of the congregation were Americans and these were mission teachers and other representatives of the different churches back of the missions.

Dr. Hagar of Claremont, for thirty years a missionary in China; Rev. Ed. Chapin, who was born of missionary parents and reared in China and who is to return in August to resume work there; and Herbert R. House, for several years associated with the Canton Christian College and for two years tutor in the family of China's President, Xuan Shi Kai, occupied seats on the platform with the Chinese mission pastors and took part in the service. Back of the platform the two flags—the Stars and Stripes and the new flag of the Republic of China—hung side by side. Familiar gospel hymns were sung, the Chinese language and the English intermingling.

Chun Qiu Sing, acting pastor of the Methodist Mission, had charge and interpreted the addresses given in the Chinese tongue, the native Christians, and by Dr. Hagar, Dr. Chapin and P. K. Lee, the latter a student in the University of Southern California and a graduate of Canton College, also spoke eloquently.

"It may be a blessing in disguise," he said, "this hesitation on the part of other nations to recognize China in that it will show the Chinese that no power on earth can coalesce factions but that of God; they will be brought to a realizing sense that only His influence will make patriotism and love in the hearts of neighboring nations."

Rev. Hong Lee, pastor of the Presbyterian Mission, and Rev. Lee Hong, pastor of the Congregational Mission, were among the leaders in the service and a noticeable incident was the plaintive prayer of a little Chinese lad, the small son of Rev. Lee, who arose in the course of the prayer service, lifted his little voice and gravely added his petitions for China.

Drink
White Rock
Water
with your meals for a few days.
See how much healthier and happier you'll feel every morning.

W. Gilman Thompson, M.D., President of the University of the City of New York, in endorsement of the product, says: "They are good for the stomach, and help to remove waste products from the system."

HERE TO FACE CHARGES.
M. M. Jones, arrested in San Francisco several days ago upon a charge of having stolen goods from several merchants in this city, was brought here yesterday to face the charges with Louis Lafabre who admits having stolen from his employers. Two trunks containing several hundred dollars' worth of clothing and other articles of value were recovered by the police.

CITY SUES CONTRACTORS.

Suit was brought in the United States District Court by the City of Albuquerque, N. M., against W. H. Glass and Walter A. Fisher yesterday to recover \$9568.55, alleged to be due on account of money advanced them by the municipality on a sewer contract.

TAKEN TO HONOLULU.

Peter Hartung, charged with having smuggled opium into Hawaii, will be removed to Honolulu for a hearing, an order to such effect having been signed yesterday by Judge Wellborn. United States Marshal Youngworth has deputized John W. Miller to take Hartung to the island. Hartung was captured in San Diego.

Water
Frontage

Open to Investors at the Harbor!

Our remarkable offering of deep water frontage is being closed out to conservative investors at the rate of \$150,000.00 to \$200,000.00 per month.

Capitalists, bankers, business and professional men and people of modest income are eagerly securing interests in this last available piece of actually developed deep water frontage. You don't have to be a capitalist to participate in this wonderful profit-sharing plan—you can secure a generous interest even if you have only a few hundred dollars.

Harbor Commissioner Gordon told the Realty

Board last week why New York recently paid \$70,000,000.00 to recover deep water frontage which it originally surrendered for almost a song.

The Danish Consul for Denmark last week predicted that there will be as great a rush of people to California following the opening of the Panama Canal as in the old feverish days of '49.

Deep water frontage at our harbor will soon be as valuable as Broadway or Spring Street frontage. This opportunity can last but a few weeks longer. Go with us Thursday and study the situation for yourself. Secure tickets at once.

Second Shipment Now in Stock

Italian Hand-Loomed
Un-crushable Linen

47 Inches Wide \$1.00 a Yard

First Shipment all Sold

In response to the following advertisement, which appeared three weeks ago:

The proneness of linen to wrinkle and crush has always been the only drawback to this practical fabric for summer dresses. Think of it! This has been overcome (as much as is possible) and we offer un-crushable Linen, something absolutely new, and on sale only at the "Vile," in Los Angeles. It is made of pure linen and specially treated and finished, to make it un-crushable. Shown in all the fashionable shades. The fact that these linens are Italian hand-craft gives them that uneven effect which is so characteristic of all hand-made fabrics. As it is possible this may be the last lot received this season, we advise an early selection.

Lorraine Tissue Voiles—25¢
Standard quality underpriced yrd.

One of the most favored wash fabrics this season. Shown in light and medium backgrounds, with woven colored checks and stripes. New and crisp line just opened.

Paquin Ratine Crepe—\$1.00
The latest Parisian craze 42 in. wide, at yard

Much later than Ratine and especially desirable for making the latest models in draped costumes. Shown in pink, blue and heliotrope only. Select early, as we anticipate a quick sale of the entire lot.

New Striped Ratine, Yd., 60¢
Cotton and silk mixture. Six new shades.

Los Angeles Times

EVERY MORNING IN THE YEAR.
Daily, Sunday and 24-Pages Illustrated Weekly.
Daily Founded Dec. 4, 1881—23rd Year.

OFFICE:
New Times Building, First and Broadway.
LOS ANGELES (Loco Ahng-hay-las)

Printed at the Presses of the Times-Mirror Company.

THE WORD OF THE HOUR.
Everybody is saying it. We said it first.
FOR GOD'S SAKE, GO HOME!

CHURCH AFTER CHURCH.
Sunday was the day that the Christian churches in the United States prayed for China at the request of the new republic.

MANY KINDS.
Man shall not live by bread alone and certainly a baby cannot. Children hunger for a breath of the big out-of-doors as much as grown-ups. Don't forget to offer your car for the kiddies on Thursday.

THE REAL THING.
A very time a banker from the East visited Los Angeles, the size and quality of our bank buildings here and the amount of business they do, stun the visitor. People here seem to have learned the wonderful secret of living well and of saving money at the same time.

PAYING OUT.
The Federal soldiers who escaped from the rebels of Sonora into the United States have been started home without their arms or ammunition. Possibly Uncle Sam can collect enough guns to pay part of the extra expense he is under in his present close patrol of the border.

BEHIND HUMAN.
There is a good deal of human nature in the State of Missouri. They want to eat their cake and have it, too. They say their fine insurance companies have no right to operate under the anti-trust law of the State, yet they refuse to allow any of the companies to quit business.

POOLISH STRIKE.
Nothing could be more like suicide than the strike of wireless operators. There are about three thousand young men in every city who have learned enough about wireless telegraphy to make good if they had a chance. This pool strike of those with the will make opportunity for some of them.

MAKING GOOD.
A Russian Count, desiring to come to America because he needed the money, was compelled to sail as a stowaway because he lacked the price of his passage. He slept in a bath tub at night and slipped out by day to charm the ladies in the second cabin. Some fond father's millions will send him back to his native castle in the air is dancing state. It is to be hoped that he will continue the use of a bath tub, even though he has no further occasion to sleep in it.

GET NOW.
Don't wait until Thursday morning to decide about giving up the use of your automobile for one day for the poor kiddies' joy ride. Telephone The Times at once that you are coming along. Don't imagine that enough machines will be offered without yours. At the best we can do hundreds of little people will be disappointed. Five thousand children ought to be taken and it is hard to get enough automobiles for a fourth of that number. Your machine may save five children a whole year of disappointment.

CONSISTENCY IS A JEWEL.
If "tariff for protection is unconstitutional," as declared in the Baltimore platform and reiterated by the Democratic President, why do Louisiana and Mississippi Democrats demand protection for sugar, and Texas Democrats ask for protection on cattle, and Alabama Democrats cry aloud for protection on steel? Why is the tariff attitude of a hundred or more Democratic Congressmen like the prayer of old Isaac: "Oh, Lord, save me and my wife, my son John and his wife, my four sons and more, amen?"

CONSTITUTIONAL ORATORIAL AND NEWSPAPER ORGANIZATION.
The Democratic Party has made the art of constitutional oratorical and newspaper organization its forte. It has a system of government by committee, and now these same gentlemen are out here in the field in their announced program of tariff legislation. The Cedar Rapids Republican says:

"Quite the most remarkable utterance that has proceeded from the present administration is the one to the effect that the tariff bill as it will come out of the Committee of Ways and Means will be the bill that is passed and that the President will sign. The tariff is to be 'railroaded' through Congress, with little or no debate and with even less by the way of amendments. The last Republican Congress did considerable through committees and rules, but they never boasted that they could pull through as important as the tariff bill through Congress in that way. One time a Republican President by the name of Taft expressed the wish that a certain bill might go through without the setting of an 'I' or the crossing of a 'V,' but before he had finished with that utterance he was hardly able to recognize the bill which the 'leaders' had drawn up and deemed sufficient to the day and the purpose. Congressmen look de-light in riding it from top to bottom, and say nothing about the 'I's' and the 'V's'."

"The Democratic method with respect to tariff legislation is the same method that they followed years ago with respect to Congressional government. They denounced the tyrannical rulings of 'Oscar' Reed, and as soon as they obtained control of the house they followed those rulings—and then some."

GET TOGETHER.
On Tuesday next there will NOT be submitted to the voters of Los Angeles the question of whether we shall have a protective tariff or a tariff for revenue only. No!

There will NOT be submitted the question as to whether we shall divest ourselves of the Philippines.

There will NOT be submitted the question as to whether our national banking system shall be reconstructed.

There will NOT be submitted the question as to whether free tolls shall be granted to American ships passing through the Panama Canal. No!

No initiative law, no referendum law and no recall of anybody will be submitted.

But there will be submitted a question as important to the home-owners of Los Angeles, and as fraught with disaster if it should be decided wrong, as any issue ever determined at the polls.

The issue to be submitted is whether the government of this city shall pass into the hands of Socialists whose motto is "Property is Robbery," or whether the rule of rule shall be placed firmly in the hands of men whose motto is "Safeguard the Home."

Here is a city whose recent growth in the marvel of the western world. In a little more than two years its population has swollen from 319,000 to 500,000, and if its growth shall not be checked, its wealth confiscated and its industries paralyzed by a Socialist triumph it will reach the million mark long before the next Federal census is taken. Some of its people are Democrats, some are Republicans, some are Progressives, some are Prohibitionists, and—it is to be regretted—a very large number are Socialists.

A very large proportion, probably a majority of those who style themselves Socialists, do not accept, or it may be do not understand, the scope and force of the doctrines of Prudhomme and Marx. They do not really believe that "property is robbery." They would be apt to stoutly resist Harriman, or Darrow, or Twain if any of these leaders of Socialism should attempt to divest them of their savings bank accounts, and seize the title to their homes, and turn them over to a "co-operative commonwealth." These men and women are not, like many of their leaders, "Socialists for revenue only." They are kind-hearted, benevolent dreamers who honestly believe that in Socialism is to be found a panacea for many of the evils which afflict life, and who think that the condition of the poor will be bettered by voting the government of this city into the hands of Harriman and his plunderers.

A minority of the Socialists—and it is the minority that is making the loudest noise—are men who are broken in fortune and beguiled in reputation, men who are making of Socialism a stalking horse on whose back they hope to ride into power; men who care nothing for the cause of Socialism, but everything for the opportunities of power and plunder which the political success of Socialism would offer.

These leaders are actively supported by the criminal, idle, dissolute classes, such as always abound in the purities of large cities.

The columns of the mischief-breeding press often teem with denunciations—possibly not altogether undeserved—"predatory capitalists." But how abominable, fratricidal, these conditions have grown by day and by night as fast as her population and her wealth have grown. They keep step with her onward steps and shadow the path of her prosperity with the menace of a political and business cataclysm.

As was demonstrated in December, 1911, there is intelligence and patriotism enough among the voters of Los Angeles to preserve their city from the calamity of Socialistic rule if they are made to appreciate the imminence of the danger that confronts them.

Let no man of whatever politics or whatever occupation, and no woman, however unencumbered with household cares, find any excuse to justify absence from the polls on Tuesday next.

Get together, then, friends! Vote for Shenk, Stephens and the anti-Socialist ticket for Councilmen.

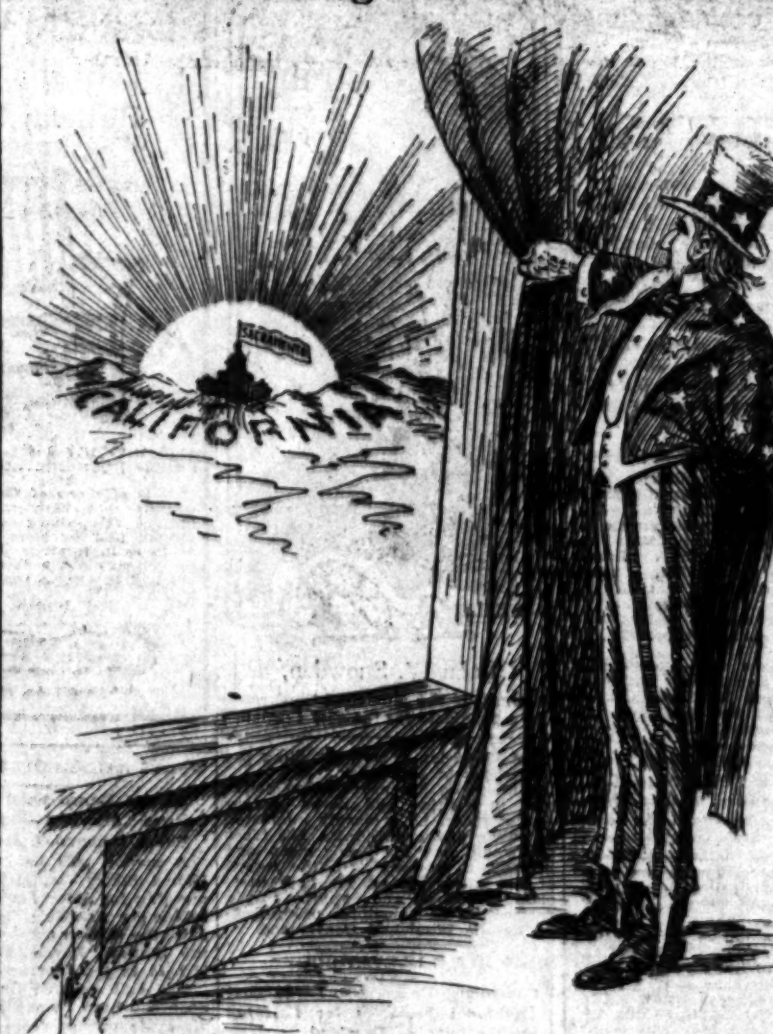

GET TOGETHER. No votes should be wasted.

We believe JUDGE ROSE WILL BE REAPRIED after election if he has the good grace to announce his withdrawal now. He would be doing a patriotic act. Of course it is too late to take his name off the ticket, but he could ask his friends to GET TOGETHER ON SHENK and beat Harriman at the primaries. That would be a very handsome thing for Judge Rose to do.

A MAN WHO KNOWS.
America in her time has suffered many things from many critics. In spite of which she has gone serenely rejoicing on her way. The most prolific of these foreign critics have generally paid as only a flying visit, on the "Cook's Tourist" order. Usually the shorter the time for investigation, the longer the ensuing gossamer.

So it is refreshing to hear the opinion expressed of a really great foreigner, who has spent six active years among us, and knows of what he is talking. The crisp, direct remarks made by the retiring British Ambassador, James Bryce, at the farewell

Watching the Sunset.

STREAKS OF WIT.

Just Wait a Little.
[Detroit Free Press:] "Pa's sick."

"Very?"
"Yes, Ma's terribly worried. She says he's so sick that he hasn't even noticed that the nurse we've hired is pretty."

A Decided Difference.
[Life:] "He was arrested for grafting was he not?"
"Haven't you got sense enough to know that men are not arrested for grafting? He was arrested for being caught at it!"

Took It to Heart.
[New York Sun:] Kitty: Why are you so glum, dear?
Marie: Jack made an awful threat last night when I rejected him.
Kitty: What, to shoot himself?
Marie: Oh, worse than that. He said he'd never propose to me again.

Many Others Like Him.
[New York Herald:] "What business are you engaged in?"
"Collecting."

"Collecting what?"
"The living the world owes me."

Proved His Ability.
[London Opinion:] Employer: Yes, I advertised for a strong boy. Do you think you will suit?
Applicant: Well, I have just finished thrashing three other applicants out in the passage!

Something Wrong.
[The Spectator:] Tommy: Pa, you know Jim and Horace? Well, Pa, Jim and Horace say their prayers every night and ask God to make 'em good boys.
Father: How nice! How very nice!
Tommy: But He ain't done it yet, Pa.

UNCLE WALT.
The Post Philosopher.

The man who mopes as though his hopes were ruined, and, and, and, who goes his way from day to day, a being sad, disgusted, is left alone to mourn and moan or brighter scenes departed, for men don't like to walk the pike with fellows broken-hearted.

We like the guy with beaming eye, and him we follow after as forth he stalks to nail the rocks and fill the air with laughter. The man who leads in useful deeds, whom we delight to follow, is not the jay who's prone to say the world is false and hollow.

He's not the chump who'll always pump from reddened eyes the briny, whose dismal word and groan are heard from here to Coochin China. He's not the glib who finds a kink in every scheme invented, he's not the freak who's sad and weak and glum and discontented. That sort of man pursues a plan that never helped or braced us, he's always made admissions, fade whenever he has faced us. And so we praise the man whose ways give courage to each mortal, who walks ahead with kingly tread and shows us how to chortle.

WALT MASON.
[Copyright, 1912, by George Matthew Adams.]

MAYOR ROLPH ON THE AGITATORS.
[From a letter of the weary and indignant Mayor of San Francisco to the referendum, recall and initiative fanatics:]

"Common scolds and obstructionists are the curse of San Francisco!"

"While protesting love for municipal ownership you are fighting it."

"Your substitute is years of litigation and speckmaking."

"You cannot ride on a lawsuit or on a speech."

"Professional agitators backing your association never built any roads or water works and never will build any."

"They accomplish nothing themselves and their sole aim seems to be to acquire notoriety by preventing anything being done."

"I am tired of critics and common scolds and I am going to fight them to the last ditch from now on."

"This election will cost the taxpayers about \$45,000 and I think it is time to stop professional agitators from foisting such expense on the people."

"If you are going to have a referendum vote on everything, that comes up you had better get a referendum vote on the administration and get somebody else to look out for the affairs of the city."

BRYAN AND BACCHUS.

Said Bacchus to Bryan, "It makes me feel sad.
At a public reception you've put me in bad
With the heads of the nation, and now I'm afraid
They'll use my name in favor of pink lemonade."

Said Bryan, "By alcohol, spirits and such,
Our national brain has been heated too much."
Said Bacchus, "And won't it be equal to you
When American brains are preserved upon ice?"

Said Bryan to Bacchus, "You'll notice at least,
How my guests cheered the liquid I served at that feast."
Said Bacchus, "Tis true that they cheered it—ahem!
For the very good reason it couldn't cheer them."

Said Bryan, "Cold water is cheaper than wine,
The ale of old Adam's a nectar divine."
Then Bacchus, disgusted, went off on a spree,
While sily walked home to his doughnuts and tea.

HARRY BOWLING.

TREATY RIGHTS OF JAPANESE.

BY FRANK LEVERONI.

The second clause of the second section of the second article of the Constitution of the United States provides that "the President shall have power, by and with the advice and consent of the Senate, to make treaties, provided two-thirds of the Senate concur."

The second section of the sixth article provides: "This Constitution and the laws of the United States which shall be made in pursuance thereof, and all treaties made or which shall be made under the authority of the United States shall be the supreme law of the land and the judges in every State shall be bound thereby—anything in the constitutions or laws of any State to the contrary notwithstanding."

The Supreme Court of the United States has held that treaties are the supreme law of the land and that the rights granted by the same shall confer on aliens rights to property in all the States which could not be conferred by act of Congress. A treaty can be negotiated and ratified which will supersede State laws relating to rights of private property.

The foregoing principles are applicable to the present Japanese question. The treaty between the United States and Japan reads as follows:

"The citizens or subjects of each of the two parties shall have full liberty to enter, travel or reside in any part of the territories of the other contracting party and shall enjoy in the territory of the other the same privileges, liberties and rights and shall be subject to no higher imposts or charges in these respects than native citizens, or subjects, or citizens or subjects of the most favored nation."

Hall in his "Treaties on International Law" states that "A treaty is a bilateral agreement binding both parties and that it shall be observed in its essential by both parties to it."

The essential function of a sovereign State is the promulgation of laws and the interpretation and execution of the same to the end that there may be justice and peace throughout the land.

The present situation coming so soon after the situation during President Roosevelt's administration presents to the public mind a serious defect in the practical working of our democratic form of government with relation to its alien population.

The contract between a foreign country and this country is made with the United States in its sovereign capacity, for we must remember that each State is expressly forbidden to enter into any agreement or contract with another State or with a foreign power. (United States Constitution, Article I, Section 10.) Why then should the central government shift the responsibility to the State government whenever alien lives and property are demolished?

The State governments have no responsibility to any foreign government. They have no means of communicating with each other and they are not aware of the official existence of each other. This is the attitude that the United States government has shown wherever alien interests and rights are at stake. This should not be so, however, as a central government has been known to interfere with the internal affairs of the State, and to protect the citizens thereof—for instance, the Homestead strike and the Chicago strike.

The central government can, if it will, assert its right to protect citizens and inhabitants, notwithstanding whether alien or native, wherever disorders may have occurred.

It is therefore indeed high time, as President Taft stated before the American Society of International Law, "that Congress has endowed the President and the Department of State with authority to keep the solemn pledges given by the nation." The President has power, with the advice and consent of the Senate, to make treaties. It is his duty as the Chief Executive of the government to see that the laws of the nation are fully executed.

It is refreshing to read that the President has determined to come to the defense of the treaty rights of the Japanese. Let us all hope as true Americans that the sovereignty of the central government will assert itself and that the treaties ought to be fully complied with as a solemn pledge.

Let us further hope that it shall not be permitted to one State nor to any number of States the violation of the terms of any treaty with a friendly country.

Chapel in Ship's Magazine.

[Christian Herald:] After Mr. Reader had been aboard the Nebraska a few weeks he went to the executive officer and said he wanted a place where he could conduct a Bible class for about twenty-five men, a place where they would be sure not to be disturbed. The officer ordered one of the electricians to take him around the ship; the electricians know exactly which of deck, sides and main space. Eighteen feet below the water line they found an ammunition passageway, well lighted and artificially ventilated.

Two tons of gun cotton floated in tanks just forward of the spot; tons of "Explosive D," the most deadly explosive known, were piled up in magazines on either side; cases of detonating caps were piled in the compartment just aft. And here Reader and the sailors sat and studied the Bible. The number grew from fourteen to thirty-one. The average attendance was twenty-eight. Some men were converted down there. One member of the class is now preparing for the ministry.

Fen Points: By the Staff

Scout is in the 57 in the outfit of the allied powers.

How are your polio-stricken recovering from the freeze of last winter?

Of course, the militant suffragettes in England are merely ballot girls.

Something to worry about—there are 2,046,845 families in New York State.

Good morning, have you been summoned to appear before the county grand jury?

Seasonable song for Southern California: "Gathering Up the Shells on the Seashore."

At this distance it looks as if the details of Provisional President Huerta were sure.

Can anybody give the name of the President of Mexico without looking at the last editions?

What has become of the frenzied execution of the local bunco men? Has anybody put on the lid?

But there will be no war with Japan. No present need of the Democrats breaking to the eucalyptus woods.

Congress may investigate the bonded trust. And it is some trust, if anyone should care to inquire.

The new municipal markets will have the flavor of the stock exchange—much of the business done on the curb.

Local fishermen claim that steelhead trout can be determined by the teeth. What is the matter with the teeth?

Some of the enemies of Vice-President Marshall acknowledge that he is a force in the political world, but insist that it is a cipher.

The foreign policy of President Wilson is approved in Buenos Ayres. But don't expect to run for President in 1918 in Argentina?

Secretary Joe Tumulty has fired his shot. That means that he is brave enough to run for Governor on the Democratic ticket in New Jersey.

Why not build a twenty-four-foot ring of give, Gore, Hunt and the Arizona Legislature an opportunity to settle their differences with the gloves?

Now that all New England has celebrated the anniversary of the ride of Paul Revere, it is averred that the ride was never made. Another dream shattered.

It now appears that Senator La Follette is no better satisfied with President Wilson than he was with President Taft. Give Senator a rattle to play with.

And May, the merriest month of all in clothing twelve stands tiptoe on the mountainside of Southern California to make her annual debut.

What a lot of amateur detectives are getting their names in the papers as count of the white slave investigations. Quick, Watson, the needle.

It now seems that President Wilson pointed the new Commissioner of Customs without the aid or consent of Secretary Redfield's side-whiskers.

Among the well-known distinguished men whose names have been mentioned in connection with the white slave agents are John Doe and Richard Roe.

Night sessions of the House in discussing the tariff bill. A program threatens to paralyze American industry, prefers darkness rather than light.

Everything is going down under Democratic administration. Income tax \$4000 are being marked down to \$1000, get ready for the income-tax collector.

In the campaign to reduce the cost of living, the highest cost of living is worthy of some attention. It is given, that a lot of us can hardly afford it.

Looks like the last call in the case of the Dr. Friedman tuberculosis cure. National health authorities have never have any more communications with him.

The announcement that hereafter warships will burn only oil is sure to make John D. Rockefeller make a boast that he can afford to run a boat.

The funniest thing we have seen is the item that the Chinese will be delegation to California to learn how to legislate. But ain't the Chinese castle causes?

The Emperor, the largest ship afloat, has just been launched in English yard, but Uncle Sam can't be the largest precedent breaker in the world of President Wilson.

Sir Thomas Lipton has accepted a conditional challenge of the New Yacht Club. Now, if Sir Thomas will age to hitch his yacht to a big boat, he may lift the cup.

There is this to be said to our Democratic, who thinks the salary of a diplomatic position abroad will be "The government settles for the reason. He can always get home."

THE KEY.

Impatience breaks upon the sea. For eyes that will not see. When the sweet sun of vision sets. Within the words, "to be."

How often we who deem the day. A dull, insensate clod. Have but to look within the heart. To find the peace of God.

And when the spirit's lifting hand. Hath gained the kingdom won. Shall men discern in earth's realm. A star of equal light.

Be That As It May—Mr. Wad Is Still a Candidate for Mayor!

By Gale.

"HIT HIM WITH MY EYES SHUT"—JOHNNY KILBANE.

The Featherweight Champion Shows Why He Intends to Defend Himself Against Dundee's Famous Leaping Blow—A Graphic Picture of Kilbane on the "Day Before."

BY R. A. WYNN.

Worried? What!

Neither Johnny Dundee, in the lower picture, or Johnny Kilbane would appear to be losing much sleep over the coming battle.

and hurting me. Just him it over for the gentleman," and Kilbane grined while Dundee appeared worried and not to relish his job of "lamming" at the champion.

They sparred for a few seconds and then suddenly Dundee leaped in the air and straight toward Kilbane. His left was crooked slightly and was headed straight for Kilbane's jaw. It was a murderous blow and if it had landed it would have laid the champion low for the count.

At that fraction of a second when it seemed about to land, Kilbane, always as lithe as a panther and as quick as flash of light, stepped forward seemingly into the blow, and flashed his head to one side just as the blow passed. With the same movement of the body, his right hand with the elbow close to his body shot up like the upheaval of an earthquake and landed flush on Dundee's chin, sending that earnest young man to the floor in a dazed condition. It was a right uppercut delivered almost as a counter.

"That," said Kilbane, "is the way I shall take care of Dundee when he jumps at me."

As Kilbane said this, it reminded him of almost the same statement that he had made a year and more ago two days before he fought and knocked out Joe Rivers at Vernon. Rivers had the bad habit of jumping at an opponent and doing it wide open, relying on his quickness and strength to smother his opponent's blows and get close in. Kilbane had illustrated this blow in his gymnasium at that time and the knockout came exactly as he had planned it out.

Now the question is, will he get the little son of an Italian fishmonger in the same manner.

ALL DAY BOWLING TOURNAMENT SUNDAY.

Steele and Turner are taking entries for an all-day tournament with which they are to open their new bowling alley in the Groves building, Sixth and Spring streets, next Sunday.

Events are provided for five-man teams, doubles and singles, with first, second and third prizes in each event. Ladies may compete in any of the contests, some of which will include mixed teams and which should produce some of the best records ever made on local alleys.

SENATOR BROWN READY FOR FRAY.

Thinks Bill Will Easily Pass Next Time.

Has Two Votes Pledged for Next Session.

Only Fell Three Short on Last Vote.

(BY DIRECT WIRE TO THE TIMES.) SACRAMENTO, April 25.—[Exclusive Dispatch.] Senator Brown of California, author of the anti-prize fight bill, said today that he had enough votes now to put it through the upper house. It is on the file for a special order tomorrow at 12 o'clock, but there is good chance that the Senate will cause its postponement.

"When the going gets going we will go to the matter and the bill will win," said Brown today.

On its Friday vote the bill was three short of the necessary twenty-one. Cogswell, who was absent, is a staunch supporter, and two or three other absentees are doubtful, but Brown refuses to tell who are the other two votes he has pledged.

The absence on Friday, when the vote was taken, were: Campbell, Cartwright, Cogswell, Cohn, Hans, Owens, Rush and Sanford. There is no doubt but that Cogswell will vote for the bill, and so will Brown.

It is almost certain to win in the Senate. If it goes through the Senate it will surely pass the House, and Johnson will sign the bill.

It does not appear now as if any law to abolish hanging in California would be passed at this session of the Legislature.

CORONA ROAD RACE ON ADMISSION DAY.

With \$10,000 as a cash prize for the Corona road race, this speed event promises to be one of the great races of the season. The date, September 5, is ideal for such a contest, and all of the big drivers, including Texiaff and Oldfield, are prepared to start in the round-the-valley race on Admission Day.

Judging from the preparations already made the race will be an event well worth watching. All plans have been made for a Howdy Special, and the cars that will figure in the Los Angeles road race are being lined up.

The road is a perfect circular speedway, three miles long, a first-class macadam roadbed, and will be completed about July 1. Some of the best drivers have gone to the construction work. The question of the speed will now rest on the power of the engine and the strength of the car.

Admission Day in California this year is to be the big event of the season. It will be made into a day that every previous record for both the mile and long distance will be smashed.

The best drivers from the West and East are to be present. Some have already sold out, and are ready to forward their entrance fee when the date is open.

The speedway is being rushed with all reasonable haste. There is plenty of time. The curbing and guttering is all in, the rock is being spread and the steam rollers are at work, and now one-third of the road begins to take shape. The signs all point to one of the prettiest, safest and most spectacular events in the history of motor car racing.

FISHERMEN WANT LONG CLOSE SEASON.

Some of the local fishermen are hoping that before the Legislature adjourns a law will be passed and signed making a close season for trout in this end of the State for two years. They say that we do not get any real good fishing now for the very reason that all the trout are small, because they do not have the time to grow to any respectable length.

The fish are larger in the Seeps than in the San Gabriel for the reason that they have more natural food and there are not so many anglers. A close season for two years would not help the Seeps any for it is a natural feeding ground for trout.

Speaking of fish, J. A. Cox of this city states that all the big "rainbow" trout caught in this end of the State are nothing but steelhead and that he further declares that there are no small steelhead caught, for as soon as they are large enough to take care of themselves they beat it to the ocean and do not return up stream until they are grown.

HOT RACE IN SOUTHERN INTERCOLLEGIATE LEAGUE.

BY PAT MILLIKEN.

WITH three teams tied for first place, the intercollegiate baseball series is beginning to look like a regular league race. At the present time, Redlands, Pomona and Occidental are tied in a knot, with Whittier out of the running. Pomona is just now getting to the top of her game and from present indications, will be much harder to trim than a few weeks back. The last two games have been easy for them and when next Saturday rolls around, they ought to be in the best condition of the year.

Occidental is just now in the midst of a wonderful slump. After starting out the season like a house afire, they breezed along through the practice games with so much class that we have all been thinking they would be the only thing when the end of the season came. It is hard to tell just what is the trouble, but it is to be hoped—and expected—that the slump will all be gone with the end of this week. They play the same game out at Bear Field against Pomona next Saturday as they have the past week, they will probably get another trimming.

SEAY AT WORK. However, Capt. Seay is at work as he has never been before, and that means a lot. This man Seay is a host in himself, and if he promises that Oxy will be in shape for Saturday's game, I am willing to stake my last winter's fortune on it.

For the first time since its organization and founding, Redlands University is a factor in a Southern California championship race. They have a real ball team out there. A little more than two weeks past, Redlands handed Pomona the surprise of their lives by taking them down the line in a very fast game.

This man Seay seems to be the goods in the box, and he can hit like a demon. It is a rare combination for a pitcher and one which has brought results. The Baptists are all on edge and with the Southern batting line in sight, they are fighting with all the strength in their many bodies to attach the rag to their flag-pole.

All this commotion tends to make intercollegiate ball a thing to be talked about. Out at Pomona College the students are wild over their ball team. Unless the season winds up without a winning squad in any branch of sport, this is something that would establish history and the sort that Pomona swears shall not be written.

Occidental looks on Pomona as the one enemy of their existence and every man in the Highland Park fair is after the Huns' scalp in this next game.

NEW STUNT. Other stunts were a wind-doping match at 1000 yards, in which the wind had the better of it, and a surprise fire pool shoot at 200 yards under the Camp Perry course, which Crossman and Dr. Felsenthal divided between them. The new stunt placed the old 200-yard slow fire and the 300-yard rapid-fire formerly used and constitutes the sole 200-yard shooting at Camp Perry this summer when the great international matches will be pulled off and where each State will be represented by a team of fifteen soldiers.

The target, the figure of a man lying prone on a six-foot white square, rises from concealment and stays in sight just three seconds, during which time the soldier, starting with the rifle at the "trail," assumes any position and fires one shot. If he fails to fire he is scored a miss. Ten shots make a score, possible fifty points.

Thus far forty-eight out of the fifty is high score for the local club, which has a number of men with State team aspirations, but the full possible score will be put on before many weeks.

Sunday, the 26th, the club again tabled the Camp Perry course, the delayed match at 600 and 1000 yards, teams of the six highest men, any number to shoot, any sights allowed. If a full turnout is on hand the club is almost certain of winning over the desert club, but wind conditions go far toward deciding these long-range matches.

It is rumored that civil war is about to break loose in the club. A match is on the tapis between the militia and the non-military members of the club over the Camp Perry course of surprise fire, 600 and 1000 yards, and the dust will fly if it is pulled off.

The military contingent includes Frazer, Crossman, Goldsborough, Felsenthal, Kellogg, Grace and Stone, while the anti-soldier team would come from the ranks of such men as Hubbe, Winger, Wotkyra, Packard.

LONG-DISTANCE RACE. Emulating the American practice of adding to the spectacular interest of a long-distance race by banking sharp turns, so as to enable drivers to take them without slowing up, the Sport Committee of the Automobile Club of France has decided to have one such banked turn for the Grand Prix race to be run over the Picardie circuit on July 12. The banked stretch will be constructed at Longueval, so as to connect the Noyon and the Montdidier roads, which here fork into one another, and which form portions of the circuit. The radius of the turn will be made fifty meters. No other details seem to have been definitely decided, but the calculation of a suitable construction has been entrusted to the laboratory engineer of the club, and the latter has made known how he will figure the angle of the bank so as to make the turn safe at any speed, which may be considered the maximum allowable. From his example, as given below, it may perhaps be inferred that sixty kilometers per hour is considered a sufficiently high speed at hairpin turn for engaging the interest of spectators.

Earns His Own Living.

(Continued from First Page.)

In compatibility with Perkins, who is seven years the junior, his being given as 40 years and hers as 47.

The peculiar points of the document are that Perkins must make his own living and that he must order and pay for the wife of the house.

It also provides that if Mrs. Perkins cannot live happily with her husband, of which apparently she had no doubts, he must consent to a legal separation. Furthermore, and apparently this played an important part in the affairs of the couple, the property interests were not to overlap and Perkins was not to have any control of his wife's considerable wealth.

The court deemed that this agreement might still do to live up to and accordingly the complainant is still Perkins. It is stated that an appeal is to be taken to the Supreme court.

A pre-nuptial agreement was also presented in evidence and this deals with the management of the respective properties. By the refusal of the court to grant the divorce this agreement still remains in force.

FOR RECONCILIATION.

The reconciliation agreement, dated August 1, 1912, reads:

"To Gregory Perkins, Jr.,

"Dear Gregory:

"First. You must make your own living.

"Second. You must order and pay for the wife of the house.

"Third. If we cannot agree, or if I cannot live happily together, you must consent to a legal separation.

"You must realize that in over-coming so many difficulties and in granting your request to give you another chance, I have had a hard struggle with myself, and if you love me as you say you do, you ought—out of regard to my happiness—to grant me my request for a separation.

"Fourth. I prefer that in the future you should have nothing whatever to do with my business. My brother, Harold, will control that, and I will not have much to do with it as he may see fit to appoint.

"If you will consent to the above and return it to me I shall renew our former relations with the earnestness the result will bring us greater happiness than the past has done.

"Your wife,

"EMILY."

Appended to this is Perkins's part of the document which transforms a demand into a document of consent.

"Your husband,

"GREGORY PERKINS, JR."

The pre-nuptial contract is as follows:

"This agreement, made June 2, 1912, between Emily Barrows-Francis, party of the first part, and Gregory Perkins, Jr., as party of the second part:

"Whereas, the parties hereto are contemplating marriage on the fifth instant, one to the other, this agreement witnesses:

"That the party of the second part shall have at no time any interest in any of the property of the party of the first part, except such property as may be in writing conveyed, and such as may be given to him by the last will and testament of the party of the first part; and he hereby releases and releases to the party of the first part and to her estate all claims to any other property whatsoever.

"That the party of the second part will not at any time exercise any control over or management of any portion of the property of the party of the first part, except such control and management as may be by the party of the first part expressly and personally given to him; and that he will at all times, when so authorized, be the best of his ability, execute and carry out the instructions of the party of the first part without compensation.

"It is further agreed that the party of the second part will not request the party of the first part to sign any writing until she shall have had full opportunity of asking the advice of any person or persons she may see fit to consult."

SOME DETAILS.

The divorce suit was brought on the allegation of extreme mental cruelty, and the acts cited at length went to show that Perkins's long years, his sulks, mares, grouches and general inaptitude to enter into the home life so irritated Mrs. Perkins that she was on the verge of a nervous collapse.

Judge Monroe permitted Mrs. Perkins to go fully into her married life with Perkins. A series of questions were asked by the court to bring out the fact whether or not Perkins had endeavored to get possession of any of the property. The court failed to get any information from Mrs. Perkins. Attorney A. W. Hutton told him as far as his knowledge went no consent had been made by Perkins on this score.

The denial of the decree was a blow had been advised by her family physician to consult an attorney with a view of putting an end to the trouble.

LETTERS TO "THE TIMES."

The Times invites strong, clear, bright letters of opinion on current subjects. Letters must be kept in sight. Essays eulogical and personal controversies are excluded. Value is added to such letters by giving of the writer's true name. Letters will be either published or withheld at the owner's request. All letters for publication should be in "personal" form and be signed and be subject to editorial supervision.

Smoking Teachers.

LOS ANGELES, April 28.—[To the Editor of The Times:] I consider a teacher and or a teacher who indulges and upholds a man, as an incompetent and that smokes and drinks, as working in direct opposition to the State school law.

The law states that it shall be the duty of every teacher to teach the children the effects of tobacco and alcohol.

It is a recognized fact that a teacher is not far more by the example he sets than by all the facts taught in the book. Now is it right that a teacher should be the very habit we are supposed to fight against, he set up as a model of all that is worthy and high?

I believe that in all that is said in this article his name is very prominent. I think these accusations should be made upon all the assistants and not only the one in question high enough to speak out and defend himself, if he can.

I believe that parents have a right to know more in the way of habits of character from those associated with their children than from anyone else. I believe that what Shakespeare said in regard to a king applies

Panama Hats at \$5

Progress at The Times School of Domestic Science

Conducted by Mrs. Bertha Haffner-Ginger

FOR WOMEN HOMEKEEPERS.

FASCINATING TALK ON A FASCINATING ART.

Open House and Free Lessons Three Days in the Week, on Mondays, Wednesdays and Fridays, in Afternoon, Second Floor New "Times" Building.

Tomorrow is "Raisin Day," and all good Californians eat raisins, think raisins and boost raisins for all they are worth, hence it will be a day of raisin dishes at The Times Cooking School. Mrs. Haffner-Ginger will

concoct raisin pie, raisin pudding and other raisin delicacies, raisins that Los Angeles housewives will simply be raving at the dainties if they can't get plenty of raisins to cook with.

Lady Baltimore Cake Charms.

Every single housewife in this city who was not present yesterday to see and to taste that Lady Baltimore cake, four layers high, with the most delectable, delicious, rich, rare and racy filling you ever put into your mouth, is sincerely to be pined. The auditorium was filled with an interested crowd, every individual one of whom watched with keenest interest the making and putting together of that cake from the time the first egg was broken till the last crumb was eaten.

"I'd wait till tomorrow morning to get a taste of that cake," solemnly exclaimed one woman when the cook lady urged patience. You know the

real "Lady Baltimore" part of the cake is in the filling. As a matter of fact, one can use any one of several recipes for the cake itself—it's the rich filling that makes a lady of this cake. Mrs. Haffner-Ginger used a white loaf cake for the foundation and the audience watched her put it together, step by step, pencils busy taking down the exact recipe as she went, together with footnotes as to the method of putting together.

The cook lady had to explain again—for there were many newcomers—just why she does not whip the whites of the eggs before putting them into the cake dough, but simply pours the seven whites on top of the creamed sugar and butter, then pulses the four and baking powder on top of the eggs and then beats the dough thoroughly together. She gave the chemical reason for this proceeding, and also why she did the very opposite in putting the yellow cake together which she made after the Lady Baltimore.

The Questions They Ask. And the questions they asked. Now, Mrs. Haffner-Ginger likes to answer questions—she'd rather do it than to eat—and she encouraged the crowd to be just as inquisitive as they cared to be. Here's a sample:

"Do you make transparent pie?" "When will you make it?" "Will you include a lesson in making pie crust in the five icing and cake lessons?" "Will you kindly tell us why an angel cake is sometimes tough?" "Isn't it because it is a fallen angel?" asked another. "Yes, I expect so," replied the cook lady, "fallen angels usually are tough, I believe."

"Just see that lovely icing; it will stand up or lay down, just as you want it to," bubbled the enthusiastic young housewife in the front row. "Will it roll over?" asked the merry matron from South Pasadena. "It was a very jolly afternoon, take

it for all in all, and peals of gay laughter rang out repeatedly at the witty sallies that passed back and forth.

Geometrical Formation of a Cake.

One woman who takes thinks very seriously and is a steady attendant, propounded a question so deep and searching that it required the use of a mental microscope for the majority of the audience to comprehend it. It sounded about as logical as "Why is a mouse when he spins?" or the answer to that scientific query: "The more the higher."

But the cook lady—she unraveled that question just as easily as pulling the thread from a dropped stitch in your crochet work.

The question ran something like this: "It was anent the different and seemingly antipodal methods of putting together the Lady Baltimore and the yellow cake."

"Why should the foundation of a

cake, when the butter and sugar are creamed, have water added next instead of the eggs, when the foundation of another kind where butter and sugar are creamed have the yolks added next?"

"Now, that's a question that shows this lady has been thinking—and thinking right to the point," exclaimed the cook lady delightedly, and she proceeded to explain just why.

Sandwiches Friday: Ham Next Week.

"Some day next week I'll cook a ham the Virginia way—shall I?" asked the cook lady, and a chorus of affirmative exclamations voiced the ecstatic approval of her audience. On Friday sandwiches will be the topic of discussion and demonstration, and indications are that there will be a full house.

Only those women who registered last week will be eligible for the first trip to the flour mills on May 6. Those who registered yesterday will

be scheduled for the second trip. The start will be made from the Times Building at 10 o'clock sharp, and the crowd made up by a roll call of the names registered.

For Information.

Mrs. Haffner-Ginger's office hours in the Times Building are from 9 a.m. to 12 noon. For information about free lectures or the kitchen courses, phone Mrs. Haffner-Ginger, Main 3299 or phone 16291.

Try Murine Eye Remedy for Itch, Weat, Watery Eyes and Gravelled Eyelids.

MURINE Eye Remedy will cure all eye troubles and soothe and refresh the eyes.

Dirty Tan Shoes Dyed Black.

with "Jumale," 25c. at shoe stores, shoe and shoe stores. Avoid harmful dyes.

The Breakfast Bell

It's music to the ears of school-boys and school-girls in homes where the morning meal is

Shredded Wheat

served with hot milk and cream. Being ready-cooked and ready-to-serve it is easy to prepare a warm, nourishing breakfast with Shredded Wheat in a few moments—a breakfast to study on, to work on, to play on. Its daily use builds sturdy, hardy youngsters—better than porridges that are bolted down without chewing.

For breakfast heat the Biscuit in the oven a few moments to restore crispness; then pour hot milk over it, adding a little cream; salt or sweeten to suit the taste. It is deliciously nourishing and wholesome for any meal with stewed prunes, baked apples, sliced bananas, preserved peaches, pineapple or other fruits. At your grocer's.

Made only by The Shredded Wheat Company at Niagara Falls, N.Y.

Take Lawyers.

(Continued from First Page.)

Schaefer looked after the interests of Noble and Jones. Thomas Lane, a real estate dealer of 901 Union Oil building, was the only one of the witnesses who testified. He said that he and another man went motoring with the young women.

Aldridge left a bride to appear in court. He and Miss Elsie Mae Green of No. 1624 Denker avenue, were married late Saturday afternoon in Santa Ana. The license was obtained after closing hours at the Courthouse there and was not recorded until yesterday. The ceremony was performed by Justice Cox. The groom's age was given as 36 and the girl's as 18.

The two defendants, former fast friends, quarreled during the informal hearing before Judge Wilbur. The break came when the Neal girl said that she and Mrs. Nesbit became acquainted when they both were in a Catholic convent in Kansas City. The latter denied that she had ever been in the Missouri city. The judge suppressed their heated altercation.

The defendants agreed that they had met by chance in Seattle eight months ago and renewed their acquaintance and that they met again last October on board a steamer coming from San Francisco, to San Pedro. They engaged apartments a month ago at the Weston Hotel, where they registered as "Christine Darling" and "Eva Darling."

"How did you happen to pose as sisters?" Mrs. Nesbit was asked. "I have no relatives or near friends in Los Angeles," she replied. "Christine's father is dead and her mother

The Way Out.

CITIZENS TO THE RESCUE.

LETTER CARRIERS' BENEFIT MAY SEVENTH.

Prohibitive Mandate Forfeiture Mailmen's Sick and Death Benefit. No Present Showings Held Under Other Auspices.

A citizens' committee consisting of Motley H. Flint, E. W. Leavelle, John H. Mathews, W. E. McVey and F. W. Blanchard has come to the rescue of the Letter Carriers' Association of Los Angeles, who were to have given a benefit performance at the Auditorium, May 7.

Practically all resignations at public performances have been made by the letter carriers, a big performance, the proceeds of which were to have gone into a fund for the establishment of a sick and death benefit. Rehearsals had been in active progress for three weeks when the Washington authorities interfered.

A number of prominent women men, however, have been in the city, a meeting was called and an above committee was appointed. The committee arrived at the Auditorium yesterday afternoon and the performance will be given May 7.

The committee will have no charges. The proceeds will be turned over to the letter carriers. E. B. Bonnell, engaged by the letter carriers to stage a production, said last night that the big production, which he had written and directed, will be given on May 7.

"It was the only thing to do," said Motley Flint yesterday in comments on the action of the Citizens' Committee. "It would not have been for the Letter Carriers' Association have gone ahead with their plan when they discovered they were being outwitted by the department."

The responsibility now lies with the Citizens' Committee and it is its intention to make the performance a success.

FROM PILLAR TO POST.

Disbarred Attorney Bumping Legal Difficulties to Have His Case Reversed.

William J. Danford, disbarred attorney and paroled convict, who was reinstated by Judge Hutton last December, made an unsuccessful appeal yesterday through his attorney, Welch & Jaffrey, to have the order of Judge Murphy setting aside the order of the then Judge Hutton, declared void. The motion was made by Judge White, court clerk, and the court informed Welch & Jaffrey that motion should be made to the Appellate Court.

Danford will carry the matter to the Appellate Court on the ground that a judge of the Superior Court could not set aside the order of another judge of the same court. Judge Murphy held that, under the law, Danford, who was convicted of a crime and sentenced to San Quentin, had been deprived of his civil rights, and while still a convict, he could not be reinstated to practice.

NO SECTARIAN TEACHING.

Ministerial Union So Declares Also That It Wants No Anti-Catholic Instruction in Schools.

At the meeting of the Ministerial Union in the Y.M.C.A. yesterday, following resolution was adopted with enthusiasm:

"Resolved, that we are strongly and irrevocably opposed to any form of either sectarian or anti-Catholic teaching in the public schools."

The names of the five persons suggested by the Methodist minister several weeks ago as satisfactory members of the board of Christian Education, including two members of the present board, were indicated as follows: J. M. Guinn and O. L. Steadman, incumbents, and Hester M. Griffith, Prof. E. J. Ryan and Frank L. West. To the latter, all persons were advised to be chosen from the ranks of the laity.

A Campaign Committee was pointed to give publicity to the cause, suggested, as follows: Rev. J. C. Pinkerton, Rev. W. H. Dyer, Rev. Russell F. Thrapp, Rev. J. H. Ryan, Rev. Charles Edward Jones, Rev. Edward Campbell, Rev. J. H. Francis, superintendent of city schools, appeared at the meeting and was given the privilege of remarks, and was cordially received. Remarks mainly referred to the of the school system, where he intended to help the young people themselves.

NEW LINE TO JAPAN.

Los Angeles to Be First Stop Place of Service to Be Started by Canal Open.

(BY A. P. NIGHT WIRE TO THE TIMES.) SAN FRANCISCO, April 28.—Japan Mail Steamship Company inaugurates a through steamship line from Japan to the western coast of the United States as soon as the Panama Canal is opened, according to a cable received today by the American, a Japanese newspaperman in this city, Los Angeles, will be first stopping place when the service is begun.

GOLD DUST

makes soft water available everywhere

Every woman knows the luxury of having soft water at her command, especially for washing clothes, but Nature has denied this luxury to many, especially to those living in cities or in "hard water" countries.

However, every woman can have soft water in her home with little trouble and less expense. The sprinkling of Gold Dust washing powder in the water from your taps or well will make it as soft as the rain water that falls from the clouds.

Gold Dust takes out the mineral substances that make the water hard and brings out the greatest cleansing value.

The Gold Dust Twins Make the Water Soft and Clear.

"Let the GOLD DUST TWINS do your work."

Use less Butter—

More Cottolene

No wonder butter is so high. Particular women who are loath to use lard or cooking butter in their cakes and fine pastry, use table butter. With butter at the price you have to pay for it, that's downright extravagance. Cottolene is just as good as butter for pastry, for frying, it is better. And Cottolene costs no more than lard. Moreover, Cottolene is richer, and two-thirds of a pound of it will go as far as a pound of butter or lard.

And lard and Cottolene are not to be mentioned in the same breath, for Cottolene is a vegetable product, healthful, always safe—makes digestible, rich, but never greasy food.

THE M. K. FAIRBANK COMPANY

The Guaranteed Liquid Hair Destroyer A Perfumed Depilatory

It is the only preparation that immediately, and without the slightest injury to the most delicate skin, will remove SUPERFLUOUS HAIR.

It Acts Instantly Wherever Applied. It is the only Depilatory sold with an absolute guarantee of satisfaction. You will find it not offensive, a requisite others dare not claim for their preparations.

We picture above the Union Oil Building, the entire Ground Floor and Basement of which we will occupy within a few weeks. We are arranging here one of the finest Banking Homes in the West.

-Dependent on Friends-

We know a Young Man who recently lost his position.

He was steady and competent—but an unforeseen combination of circumstances threw him out of a job.

He had saved no money whatever—found himself without work, penniless, with a family to maintain.

Friends helped this Young Man. But he was two months idle, and had to wait another full month before drawing any pay in the position he finally secured.

It will be a year at least before this Young Man pays what he owes—provided he observes the strictest economy.

That he had Friends was unusually fortunate.

WHAT A DIFFERENT POSITION HE WOULD HAVE FOUND HIMSELF IN, IF HE HAD SAVED SOME MONEY WHEN HE HAD IT!

This Bank offers every encouragement and advantage to Men and Women who want to save money.

Accounts may be opened in sums as small as One Dollar. They earn interest at Four Per Cent or Three Per Cent, according to the form of account selected.

Would YOU not feel SAFER if you were building up a Reserve Fund, even a small one?

Savings, Trust and Commercial Departments. Modern Safe Deposit Vaults. Efficient Steamship Department where Tours may be arranged and transportation and accommodations secured.

Drs. SHORES, Specialists

Dr. A. J. and G. W. Shores have spent years in the study and treatment of Chronic and Nervous Diseases of Men, Women and Children. They have treated over 100,000 in the past twenty years—an experience rarely ever granted any specialists—and have planned therefore infirmities, that is, to make them sick people. Every moment is given to the treatment of CATARRH, CHRONIC and NERVOUS DISEASES EXCLUSIVELY. There is where they excel and there is where they can serve you better than most any one else. Don't be a permanent invalid—get cured now.

Dr. Shores know what causes Catarrh. They know how to cure it. They know what causes stomach trouble. They know how to CURE it. Instead of merely relieving it. They have studied the Liver, the Kidneys, the Heart, the Throat and the Lungs, and they know what to do for these troubles.

PROMINENT SYMPTOMS OF CATARRH

THE HEAD AND THROAT.

This form of catarrh is most common, resulting from neglected colds. Quickly cured with little cost by Drs. Shores & Shores' famous treatment.

Is your head stopped up?

Does your nose discharge?

Is your nose red and tender?

Is there pain in front of the head?

Do you feel tired in the morning?

Do you sleep with your mouth open?

You can be easily cured now. Don't let it run into complications.

THE BRONCHIAL TUBES.

When catarrh of the head or throat is neglected or wrongly treated it extends down the windpipe in the bronchial tubes, and after a while attacks the lungs.

Have you a cough?

Do you take cold readily?

Have you a pain in the side?

Do you raise frothy material?

Do you spit up little cheese lumps?

Do you feel like you were growing weaker?

CATARH, DRAINAGE AND

Why not try the treatment that cures? We have published many testimonials from well known and reliable people, who have been cured of Catarrh, Asthma, Bronchitis, Hay Fever, Ear Noises. If you suffer from any Chronic Affliction, why not come and see the Doctors who cure? Call or write.

Blight of a Bad Breath.

Do people stop you because you have an offensive breath? Certain forms of catarrh, commonly called "croup" or dry cough, have a very offensive odor.

KIDNEY AND LIVER.

Troubles. Gallstone Computation. Pain in Back. Burning or Smarting when urinating. Swelling under the Eyes. Head these evenings. Bring a sample of urine and have it tested free. Call Today.

OF THE EARS.

Catarrh extends from the throat along the eustachian tubes into the ears, causing partial complete deafness.

Is your hearing failing?

Do your ears discharge? Do they ring?

Is the wax drying in your ears?

Do you hear better on some days?

Do you make your hearing worse?

Don't neglect this until your hearing is irreparably destroyed.

OF THE STOMACH.

Catarrh of the stomach is usually caused by swallowing poisonous mucus which drops down from the head and throat at night.

Are you constipated?

Do you belch up gas?

Do you bloat up after eating?

Is there constant bad taste?

Now is the time to be permanently cured.

Dr. Shores are curing hundreds every year.

Hours: 9 a.m. to 5 p.m. Sundays, 10 to 12.

Cities and Towns of Los Angeles County

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

KNIGHTS HAVE JULY PLANS.

Komical Fellows of Pasadena Hold a Meeting.

Baseball Season Will Open Tentatively Today.

Alhambra Residents Make Automobile Invasion.

(BY DIRECT WIRE TO THE TIMES.) PASADENA, April 29.—(Exclusive Dispatch.) The Komical Knights of the Carnival, who this year abandoned their evening tournament of roses parade in order to center their efforts entirely on the Fourth of July celebration, held the first meeting to make arrangements for the event at the Board of Trade rooms last night.

Several more meetings will be held before arrangements are perfected, but it was decided last night to carry out the event on a much larger scale than last year. Nearly two as many fireworks will be set off in the evening, and the afternoon programme at Tournament Park is to be even more entertaining than last year.

A specialty will be made of the horse racing and the organization expects to have some of the best races ever held in the city. It has not yet been decided whether there will be a parade or not. This will be discussed further at a meeting to be held May 2.

PASADENA IS IN THE way of becoming a red hot baseball town this summer and the city is blossoming out today into fans of the most enthusiastic stripe.

With a new team barely organized, the city is to blossom out today with a baseball parade and a game in which Mayor Thum will pitch the first curve.

The millionaire inventor of sticky fly paper said last night that he had determined on just what kind of a curve he should pitch and that he is willing to guarantee that it will not be hit, at least unless a bat of exceptional length is used.

The parade through the business section of the city will start at 2:30 o'clock this afternoon. It will be headed by a band of nine pieces, and there will probably be nearly a hundred automobiles in line.

The line of march will extend to Raymond Park, where the Pasadena team will play its first game with San Bernardino's nine. Barney Oldfield will catch for the Pasadena team. The local and San Bernardino teams will continue to play each afternoon this week. The games will be called at 3:15 o'clock.

The schedule that has been arranged calls for seventy-seven games to be played in Pasadena this summer.

Over one hundred residents of Alhambra paid a visit to Pasadena yesterday. They came in fifteen automobiles and a few on foot. They arrived in the city, seeing the sights and hearing with all their might for Alhambra, "the city pulsating with prosperity."

Since the new traffic ordinance went into effect several days ago the Police court has seen the busiest place in the city. Fourteen more autoists yesterday pleaded guilty before Judge McDonald to violating the ordinance which forbids owners or drivers from leaving cars in any one place over forty-five minutes. They were fined \$1 each.

In order that those who cannot attend in the daytime may have an opportunity to see the exhibition of paintings given at Throop Polytechnic Institute by the Pasadena Music and Art Association, the exhibition rooms will be open tonight and Thursday nights, between 7:30 o'clock and 9 o'clock. E. A. Bachelder will speak Thursday night. The pictures that are shown have been lent to the association by residents of Pasadena and Los Angeles and in the collection are several of the most famous canvases in the West. The exhibition will continue until May 5. The object of the association under whose auspices it is given is essentially to build a museum and art exhibition building in the city.

Fred R. Vore, a local electrician, is slated for the office of City Electrician, from which W. H. Reeves is to resign June 1, as the result of the new City Commission's coming into office, according to the political wisecrack, although the city commissioners have not yet formally announced his name.

Announcement was made yesterday of the gift of a second memorial window to the Neighborhood Church, although the name of the donor is withheld. The window, which is to represent "Christ, the Good Shepherd," has already been ordered. It will take the place of three small windows on the California-street side.

At the request of Democrats of Long Beach Secretary Blay of the Chamber of Commerce today sent a telegram to Secretary of State Bryan inviting him to visit Long Beach and the Southland before he returned East, assuring him of a cordial welcome from the "unfettered" who went through the last campaign without a glimpse of the big guns. The Commissioner replied that he "appreciated the invitation but regretted exceedingly that it would be impossible to accept."

COURTESY TO BRYAN.

At the request of Democrats of Long Beach Secretary Blay of the Chamber of Commerce today sent a telegram to Secretary of State Bryan inviting him to visit Long Beach and the Southland before he returned East, assuring him of a cordial welcome from the "unfettered" who went through the last campaign without a glimpse of the big guns. Long Beach. AN AGGRESSIVE CAMPAIGN PLAN.

LONG BEACH BUSINESS MEN WANT BONDS VOTED.

Meeting Has Been Called at Which All Factions Will Have Something to Say, and It Is Thought Factional Lines Will Be Effaced for a Time.

LONG BEACH, April 28.—Anticipating that the City Council tomorrow night will consider favorably an ordinance calling an election for a bond issue of over a million dollars to provide for certain civic betterments recommended by an Advisory Board, the Realty Board has issued a call for an election question box meeting Thursday evening which is preliminary to an active and aggressive campaign for the success of every measure advocated.

It is to be a supreme effort to provide jointly for measures which in the past two years have been defeated singly at the polls because of the opposition of those who thought their desires should be considered first. By the merger method it is thought that all factional differences will be forgotten. During the evening addresses will be made by Mayor L. S. Hatch, F. R. Craig, Charles Murphy and Rev. H. K. Booth.

MAY DAY QUEEN.

In order to secure funds for work during this year the Associated Charities is busy this week with arrangements for its May Day carnival at the auditorium on Saturday. A Queen of May is the chief feature and considerable interest is being manifested in the merits of four candidates who are being voted for. These are Miss Mae Dingman, put forward by the Realty Board; Miss Margaret Holtz, of the Woman's City Club; Miss Virginia Bismack, Pike Association; and Miss Virginia Evans, of the Polytechnic High School. At 6 o'clock tonight Miss Dingman had a lead of 500 votes.

SUMMER CAMP SELECTED.

The Y.M.C.A. summer camp for its boys was selected today. It will be located on the west fork of the San Gabriel River, five miles from Mt. Lowe, four miles from Mt. Wilson and 2000 feet above the sea. About 150 boys will spend two weeks there, the grammar school boys from June 10 to 24 and the high school boys from July 1 to July 15. The boys will walk the fifteen miles between the camp and Sierra Madre.

NOTED VISITOR.

A noted visitor at Hotel Virginia today is Dr. J. M. Stenland of Hot Springs, Mont., who is resting here a few days before starting for a tour of the Orient. He will then go to Europe where he will study the methods of treatment of the insane in the large cities of the old world. Dr. Stenland has for fourteen years been assistant superintendent of the insane hospital at Warm Springs, and when it was taken over by the State several months ago he was made superintendent. He is accompanied by his family.

COURTESY TO BRYAN.

At the request of Democrats of Long Beach Secretary Blay of the Chamber of Commerce today sent a telegram to Secretary of State Bryan inviting him to visit Long Beach and the Southland before he returned East, assuring him of a cordial welcome from the "unfettered" who went through the last campaign without a glimpse of the big guns. The Commissioner replied that he "appreciated the invitation but regretted exceedingly that it would be impossible to accept."

ALL RECORDS SURPASSED.

Gunnery on Cruiser Maryland Do Wonderful Work.

Brief Shooting Practice Results in Many Hits.

First Battle Over Windward Avenue Is Waged.

VENICE, April 28.—Officers of the armored cruiser Maryland, which dropped anchor off this coast at 10:15 this morning, published a statement declaring that today's gunnery practice was the best ever made in the history of the ship.

The practice, which was carried out by the gunnery department, was a remarkable score of thirty-one hits off San Diego last night, which was a record for the ship. The practice was carried out by the gunnery department, which has carried it for a year. The practice was carried out by the gunnery department, which has carried it for a year.

VENICE, April 28.—Officers of the Marine corps, who have been practicing on the coast since this morning, jubilantly announced that the gunners of the cruiser, last night, made the best target record ever made by a United States ship of war. The cruiser, which for two years carried the trophy for best marksmanship, by a remarkable score of thirty-one hits on the target last night, wrote the name of the dreadnaught Delaware, which has carried it for a year.

Ordinance Officer Calhoun, who is in personal charge of the practice, states that the score made has never been duplicated by battleship gunners. Assistant Ordnance Officer McKenzie says he never saw any good work on the part of the gunners. Capt. Elliott, of the cruiser, today transmitted a review of the practice, calling attention to the remarkable high score, to the Secretary of the Navy, who will order the trophy given to the Maryland.

The cruiser has been waiting at anchor for several days for perfect weather in order to finish the target practice. Last night the sky had been hovering over that part of the coast. A strong wind was blowing and the ship's searchlights picked out the six targets up. Firing began at 6:00 yards and ended at 2000 yards. The men up a shout that was echoed by officers when the targets were hit in this morning and the target was counted.

The cruiser will be heard on Sunday morning, when she will be up opposite the Municipal pier at Santa Monica. There are men ashore on liberty, each day for forty-eight hours. Venice and Santa Monica will show the men of the cruiser a good time, while the city will be benefited by a part of the money.

TOWNERSHIP OF STREET. Attorneys Hanna, Anderson and the presented the cause of the Windward avenue alteration to Justice Tennyson today, and Monday evening 7:30 the City Company and Thomas W. put in a defense. This is a lot in determining whether Windward is a public street, a private street, or a street of the city. The city has been public for over seven years; that deeds were given to the city; that the city has spent thousands of dollars in the upkeep of the street; and in the installation of fire hydrants.

WATER SHOW OPENS TODAY. The Monks Bay Women's Club Promote Exhibition of Beauties of Fragrance.

MONICA, April 28.—Most of the events of the week will be the flower show to be given by the members of the Santa Monica Bay Women's Club for three days, starting tomorrow. The judges will be H. R. H. T. D. Barnhart and Dr. R. L. Handhouse. Prizes will be for many varieties of flowers and plants.

NEWS BRIEFS. One of the injured persons hurt in the smash yesterday was badly hurt, and the doctors are sure of her recovery. Mr. and Mrs. will be discharged from the hospital tomorrow.

Oliver, who is the right-hand man of the Japanese, having been here, has learned that the launch Koba, which was taken in anchorage here yesterday afternoon, was towed to San Pedro by a tugboat, and the launch was badly damaged. The launch, which was taken in anchorage here yesterday afternoon, was towed to San Pedro by a tugboat, and the launch was badly damaged. The launch, which was taken in anchorage here yesterday afternoon, was towed to San Pedro by a tugboat, and the launch was badly damaged.

POMONA BRIEFS. POMONA, April 28.—Beginning this morning the City Council will start a campaign against weeds and vacant lots in all parts of the city, by enforcing the ordinance here some time ago whereby owners are compelled to keep their property clear of weeds and grass.

Barbara Greenwood, who was number of years superintendent of the kindergarten here and who is in the kindergarten department of the Los Angeles Normal school, has been honored by the local Education Society, having the garden building on North Park formerly called the central kindergarten. Miss Greenwood, while she was here, did much for the kindergarten work, and she will be remembered by the members of the local Education Society.

Members of the local Education Society are making great preparations for the celebration of the centennial of the birth of George Washington on Friday, May 3, when the district will be visited by the Education Society. The children will be in charge of the celebration. The children will be in charge of the celebration.

VENICE, April 28.—By a vote of 10 to 5, the Tri-County Reformation Committee today passed a resolution declaring that body to be "opposed" to the State Reformation Commission bill, introduced at Sacramento. The bill is composed of twelve representatives from each of three counties, Riverside and San Bernardino, and is organized to look after mutual water interests of the counties.

A special meeting of the committee was held at San Bernardino on April 23, 1913, and it was decided that it is in opposition to the passage of Assembly Bill No. 642, including any legislation from the counties of Riverside and San Bernardino to use all honorable means to defeat the same; and be it resolved that a copy of this resolution be sent to the Legislature.

The discussion of the bill was held at San Bernardino on April 23, 1913, and it was decided that it is in opposition to the passage of Assembly Bill No. 642, including any legislation from the counties of Riverside and San Bernardino to use all honorable means to defeat the same; and be it resolved that a copy of this resolution be sent to the Legislature.

SIX INJURED BY FIRE TRUCK. RIVERSIDE DRIVER UNABLE TO TURN A CORNER. One of the Victims Is Suffering from Contusion of the Brain and a Machine Owned by an Angeleno Is Totally Wrecked—Mayor Is Making an Investigation.

RIVERSIDE, April 28.—Six firemen were injured, one seriously, a Los Angeles automobile wrecked and a machine owned by an Angeleno is totally wrecked—Mayor is making an investigation.

The heavy apparatus was returning to the fire hall for more chemical, after fighting one fire and being summoned to attack another. The driver, Ellis Knight, was apparently making too much speed to negotiate a sharp turn from Main into Eighth street, the car going into the curb on the north side of Eighth, where of Main street, demolishing a Ford car and coming to a standstill after smashing into a big palm tree.

The most seriously injured was Albert Holmes, a garage employee, who was standing on the left footboard and was hurled with terrific force to the pavement. He sustained contusion of the brain and severe scalp wounds and bruises. When picked up blood issued from his ears, and physicians summoned at first regarded his condition as grave. Later reports state that his injuries will not prove serious.

Others more or less painfully injured were Justin Pequegnat, an employee of the fire department; Frank Carroll, volunteer; J. R. Pfau, operator at Loring Motion Picture Theater; Ora Townsend, assistant window dresser, Reynolds Department Store, and Ellis Knight, driver of the fire department auto.

The auto chemical engine was badly damaged, but it is believed can be repaired for a few hundred dollars. The wrecked automobile belonged to H. H. Mason of Los Angeles. Mr. Mason had left the car only a few moments before the accident.

Mayor Peters has made a personal investigation of the unfortunate affair, and an official investigation will be made if it should develop that the accident was due to carelessness on the part of anyone in the employ of the department.

INVESTIGATING EXPLOSION. While the figures are not made public, it is learned that a second investigation of the unfortunate affair, and an official investigation will be made if it should develop that the accident was due to carelessness on the part of anyone in the employ of the department.

NEWS BRIEFS. Santa Margarita is out of \$2000 for the determination by the Court of her petition for a writ of habeas corpus. She has served time in the county jail for selling liquor in violation of the local option law. The Court is that the writ will be used to establish no-liability in the district in which the ordinance already prohibited the sale of liquor there. The petition was filed at Sacramento on April 23.

San Francisco: William M. Aldrich, 25, of Los Angeles; Leroy W. Pasadena; Lynn O. Pasadena; Mary Barnhart, 21, both of Los Angeles; Louis Barnhart, 22, of Los Angeles; Hunter M. Bird, 21, and H. H. Mason, 18, both of Los Angeles.

CHURCH DAY. Boys and Girls Receive Sacrament at Famous Ventura Place. The occasion was the annual celebration of the sacrament of the Eucharist, which was held at the famous Ventura Place church on Sunday, April 28. The children were in charge of the celebration.

Landmarks of Typewriter Progress

Such are all the recent developments of the

Remington

(Visible Models 10 and 11)

Among these developments are:

The Built-in Decimal Tabulator—which makes the decimal tabulating mechanism an integral part of the typewriter.

The Tabulator Set Key—which eliminates all hand setting of the tabular stops.

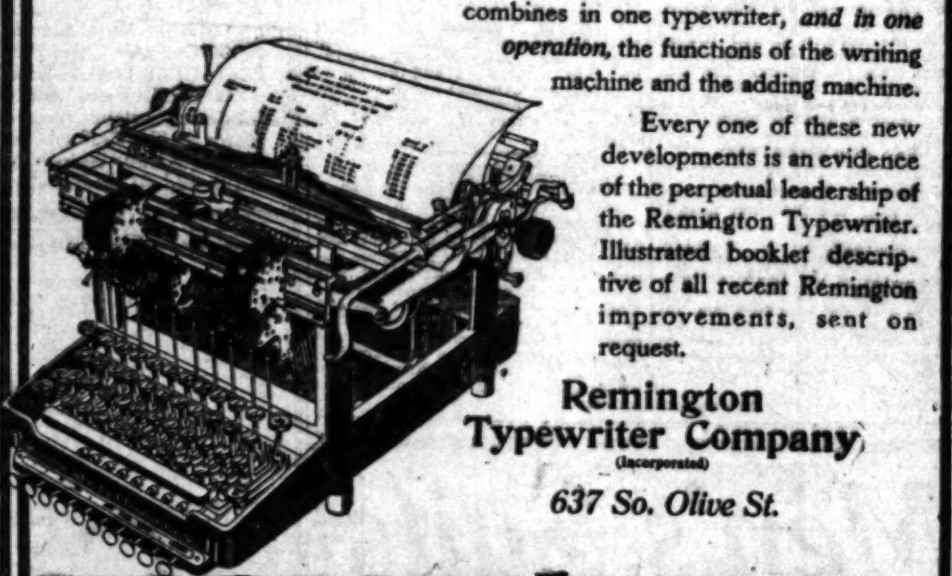

The Column Selector—which determines, by the stroke of a single key, the exact point on each line where the writing is to begin.

The Adding and Subtracting Remington (Wahl Mechanism)—which combines in one typewriter, and in one operation, the functions of the writing machine and the adding machine.
